RR Depot Trivial Pursuit Olympics Set for Aug. 23

What well-known ice sculptor for the Winter Carnival also delighted crowds by riding a toboggan downhill while standing on his head?

Name the lumber baron who sold Karen Hartwick a tract of land including huge pine trees that later became a state park.

If you know the answers to those local trivia questions, you may want to enter the 1st Annual Depot Renovation Trivial Pursuit Olympics set for August 23.

The Grayling Rotary Club is sponsoring the Trivial

Pursuit Olympics as the first fund raiser to help renovate the Grayling railroad depot.

"This project of renovating the Grayling depot has been taken on because the club felt the building was part of the heritage of our community and should be saved and renovated," said Rotary President Randy Thompson. "At this time, no projected use for the building has been established. We simply want to save the building."

Questions for the competition will come from the commercial trivial pursuit

Genus game with one added category of local trivia. Questions in the local trivia category will come from the Crawford County Centennial book, "The First Hundred Years."

Registration for each athlete sent to the trivial pursuit olympics from a business, club, or group is \$20. First prize at the olympics is \$100, second prize \$50, and third \$25. A traveling trophy will be presented to the winning sponsor.

The trivia olympics will be held in the Joseph Stripe Auditorium at 7:30 p.m.

Primary Power Announces Plans For Local Power Plant

Business and other community leaders met Wednesday, July 25, at the Grayling Holiday Inn to hear plans a group of Michigan investors have to build a plant locally which will turn wood waste into energy. Primary Power, the name of the group, proposes to invest approximately twenty million dollars in the power facility.

Present at the meeting were three of the managers of Primary Power, including the President, Richard Shockley; Treasurer, Roger Silverthorn; and John Parrott, legal counsel. All three are directors and shareholders in the project. Also attending was James Suggs, manager of the Detroit office of Black and Veatch, an architect engineering firm nationally recognized as one of the top power plant engineering firms in the world.

On behalf of Primary Power, President Rick Shockley said, "We are most pleased with the reception we have gotten in Grayling. The 25 local people who attended Wednesday's meeting represented a good cross section of the community leaders and all present were very supportive of our plans for doing business in Grayling."

Shockley said that nearly two years have gone into planning for Primary Power projects. The Grayling project will likely employ thirty people locally when operational, with an anticipated thirty additional jobs in the surrounding area to support the wood requirements of the facility.

The proposed site will be located on the east side of U.S. 75, approximately four miles southeast of Grayling.

The facility will be located on forty acres of land and will occupy approximately ten acres of the forty-acre parcel. It is to include a wood kiln operation for drying approximately four million board feet of lumber annually, and the electric power generation facility, which is expected to produce eleven thousand four hundred kilowatt hours to be sold to Consumers Power Company.

The power plant will be an environmentally clean, low profile facility, well under all State and Federal Codes for sound and emissions from the plant, said Shockley.

The plant design is based on a conventional process. Wood is gasified to produce a low-grade fuel gas that, after clean-up, will be directly

burned in one gas-fired steam generator. The steam is used to produce electrical power in condensing steam turbine generators. It is planned that the source of wood will be wood waste from sawmills, with the balance of wood supply purchased in the local area. Contracts are presently being negotiated for a waste wood supply.

The facility is being designed by Black & Veatch, Architect Engineers. Black & Veatch has designed numerous facilities in Michigan, including power plants in Holland and Grand Haven, Michigan. Black & Veatch has commenced preliminary work on the Grayling site.

A land swap had been arranged with the State of Michigan for that parcel outlined. Construction will reach its peak in the second and third quarters in 1985. It is expected that approximately seven million dollars will be required in construction at the site and it is planned to use northern Michigan contractors and laborers to the maximum extent possible, Shockley said.

The project will be approached in phases, with the first phase to include the power plant and the second phase, the wood kiln.

Northern Commissioners Meet Here

County commissioners from the northern lower peninsula met recently at Wa Wa Sum, the Michigan State University conference facility on the bank of the AuSable, to discuss natural resources.

The meeting was hosted by the Cooperative Extension Service of MSU and was staffed by their experts on water resources, forestry, and fisheries management.

In the morning the group

toured various natural resources businesses in the area including Custom Forest Products, AJD Forest Products, and the non-profit county operate Grayling Fish Hatchery.

Afternoon field trips dealt with forest management where extension specialist Russ Kidd and agent Bob Ojala discussed experimental plantings at Wa Wa Sum.

Don Garling, fisheries specialist, showed some

miniature habitat models and discussed fish management in terms of various ways to have ideal sizes and numbers of fish in different bodies of water. Garling told the group that one of the major problems he witnesses in small lakes is an overabundance of weeds. He said the weeds hide small fish from predators. The small fish then overstock the lake. When fish are that

From Our Corner...

For our faithful readers who may be interested in our welfare we wish to report we did survive the past week of playing bachelor...we do admit it was through the graces of the Deity, the invention of the electric oven, frozen dinners and cold meat, with a hamburger thrown in one night when we really felt like cooking...we learned how to fry hamburgers last year on the grill and then it has been a carry over this summer for our survival on Monday evenings when our bride goes to the links to swat the little white ball...we assume it will be the same this winter when she goes to bowl on Monday night...we really don't mind the Monday nights since they have been showing Monday night baseball and then it seems Monday night football lasts nearly all winter...

We mentioned awhile back that it didn't take much to amuse the ol' fella when we would watch the Orioles feed on oranges...well, one night last week when we were cooking our TV dinner we looked out in the back yard and there was a rabbit hop-pin' all over the place eating what is left of the dandelion greens and anything else that was green...we don't know how it got through our board fence, or how it got out, but it was gone after about an hour, just right to cook our dinner, and before the Atlanta Braves baseball came on...

Our Buckeye family arrived Saturday afternoon, bringing Thelma back and continuing on to Elk Raids for John's grandmother's 90th birthday...how they all got in the one car is beyond us...there was Thelma, John, Toni, T.J., Stefany and Charcoal, the girls black pony (really a Lab) but big enough to be a pony...plus suitcases, etc., for spending a week-end...

We got a nice note from Sal (Truettner) Hubel last week remarking about the upcoming elections and the fact we probably won't ever be able to get it across to our readers that they have to sign their name to the "Editor's Mailbox"...Sal, for the many years she lived in Grayling (now Clare) was Mrs. Grayling...she took a very active part in anything that pertained to helping to promote Grayling...she was the first lady county commissioner...plus a lot of other firsts in civic duties...and for a long time headed up the Miss Grayling Winter Sports Carnival Queen Contest...when we came to Grayling nearly forty years ago it was Sal and Spike MacNeven who carried the so-called torch in the thankless job of promoting their home town...others have followed but, they did it back in the days when things were not so plentiful such as money, transportation, etc., one may call it the dark ages just following the depression and then World War II but, it was also a fun time for the hi-jenks crowd, and for some reason to us, it was a different era...now I guess there are too many things for people to do that we should be thankful for those who take time out of their busy lives to help promote the area as a whole...living is fast...and it is going to get faster as time goes on...

They buried a good friend of mine last week in Bay City, and I'm sure of many, many sports minded people in the north country and in the thumb area...Mike Sturm, was laid to rest following an accident when he was killed near his home in Arenac County. He had retired as Sports Editor of the Bay City Times February 1st of this year after working 38 years for the paper, 35 of them as sports editor...

Mike's span in newspapering was about the same as ours...and we remember the many times we would meet, all it seemed like was all I did was listen...Mike's trademark was his pipe and his everlasting jangling...he had a world of knowledge of sports in his mind and it made it enjoyable talking to him...his memory was fabulous...

Mike was buried with his ever present pipe in his hands and a copy of the Times tucked under his arm and at the services was characterized as a "local folk hero"...as a final tribute and last goodbye, the procession cruised in front of the Times office as it headed out to a cemetery in Kawkawlin...

So, we will type -30- on the story of Mike Sturm, a friend of ours and to a multitude of others...

We just found out we're going to have to grill the hamburgers tonight so we will bid T.J., Stefany, and Amber goodnight...

Biggest Fire Fire

Last Halloween, someone crept through the frosty woods near Winchester, Va., set fire to one of the largest piles of tires in the world, and instantly turned it into the largest fire in history.

The Bible Speaks

From Calvary Baptist Church

PRAYER FOR OUR CONSTITUTION

The following is Benjamin Franklin's call to prayer for God's guidance in writing the U.S. Constitution:

"Mr. President: The small progress we have made after four or five weeks close attendance and continual readings with each other -- our different sentiments on almost every question, several of the last producing as many noes as ayes is, methinks, a melancholy proof of the imperfection of the human understanding. We indeed seem to feel our own want of political wisdom, since we have been running about in search of it. We have gone back to ancient history for models of government, and examined the different forms of those republics which, having been formed with the seeds of their own dissolution, no longer exist. And we have viewed modern states all round Europe, but find none of their Constitutions suitable to our circumstances."

"In this situation of this Assembly, groping as it were in the dark to find political truth, and scarce able to distinguish it when presented us, how has it happened, Sir, that we have not hitherto once thought of humbly applying to the Father of Lights to illumine our understanding? In the beginning of the contest with Great Britain, when we were sensible of danger we had daily prayer in this great room for divine protection. Our prayers, Sir, were heard, and they were graciously answered. All of us who were engaged in the struggle must have observed frequent instances of a superintending Providence in our favor. To this kind Providence we owe this happy opportunity of consulting in peace on the means of establishing our future national felicity. And have we not forgotten that powerful Friend? Or do we imagine that we no longer need His assistance?"

"I have lived, Sir, a long time, and the longer I live, the more convincing proofs I see of this truth -- that God governs in the affairs of men. And if a sparrow cannot fall to the ground without His notice, is it probable that an empire can rise without His aid? We have been assured, Sir, in the sacred writings, that 'except the Lord build the house they labor in vain that build it.' I firmly believe this; and I also believe that without His concurring aid we shall succeed in this political building no better than the builders of Babel. We shall be divided by our little partial local interests; our projects will be confounded; and we ourselves shall become a reproach and byword to future ages. And what is worse, mankind may hereafter, from this unfortunate instance, despair of establishing governments by human wisdom, and leave it to chance, war, and conquest."

"I, therefore, beg leave to move that, henceforth, prayers imploring the assistance of Heaven, and its blessings on our deliberations be held in this assembly every morning we proceed to business, and that one or more of the clergy in this city be requested to officiate in that service."

Our forefathers did not view the U.S. Constitution as a master collection of human wisdom, but an answer to their prayers from a sovereign God.

THE GAS PUMP

Pumping Brakes

Many drivers have been brought up on the advice that pumping the brakes is the best way to stop safely on wet and slippery roads. Not any more. Disc brakes do not release as quickly as the old drum brakes. Result: When you pump disc brakes, there's a good chance they may not release at all and control of the car is out of your hands. Instead of pumping, squeeze your brakes with a slow, steady pressure. Just before they reach the point of locking up, ease up on the pedal until the wheels roll easily. Then repeat the procedure.

Barefoot among the Political Potpourri

by Richard Millman

TIME ONCE more for one of our infrequent strolls, barefoot among the political potpourri...

TWO OF THE more ill-advised political appointments of any decade have now been terminated, among much hue and cry, ostensibly at the request of the appointees.

President Reagan pulled out many stops in political illogic with the appointment of Anne Burford as head of something called National Advisory Commission on Oceans and Atmosphere.

Ms. Burford, of course, earlier had been ousted as head of the Environmental Protection agency under some cloud. For the President to select her again — especially with a campaign coming up — defied political logic.

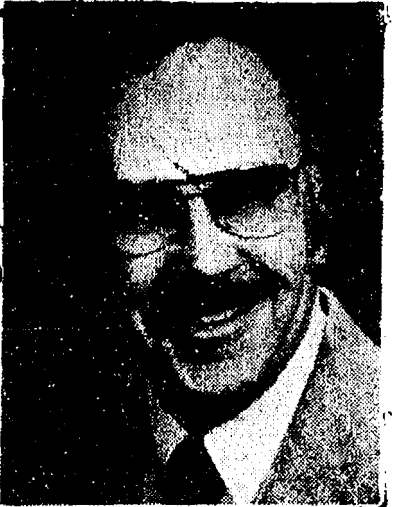

Ms. Burford added to her own pickle with the on-the-record comment that her new job was "a joke...a nothing-burger." While she gets high points for colorful language, she gets low points for political astuteness.

Anyway, she asked that her name be withdrawn, which finally showed some common sense. Her withdrawal request came after both the Republican controlled Senate and the Democrat controlled House, asked the President to un-select her. Mr. Reagan demurred, but Ms. Burford took care of it. Good riddance of a bad appointment.

NOT TO BE OUTDONE, Democratic nominee Walter Mondale pulled a political blunder with his selection of Bert Lance of Georgia to his campaign hierarchy. At first, Mr. Mondale wanted Mr. Lance as national party chairman, then buckled under party pressure against that move, and instead made Mr. Lance his national campaign chairman, or something of that sort.

Mr. Lance, to his credit, finally stepped aside in that role, too. He must really want Mr. Mondale to win, to get out of the picture in such a fashion; if he held animosity toward Mr. Mondale, he should have insisted on staying.

Mr. Lance, of course, was the former budget director under former President Carter (and former Vice President Mondale) who resigned under at least as big and as dark a cloud as covered Ms. Burford.

Michigan Mirror

Horse Racing Advisory Committee Calls For Off-Track Betting

Warren M. Hoyt, Executive Dir., MPA

A proposal to allow off-track betting and/or simulcasting of horse races from another site was among recommendations made in a preliminary report of a 15-member state Horse Racing Advisory Council, released by state Racing Commissioner William Ballenger.

Other recommendations included the "overhaul" of the tax structure of pari-mutuel horse racing, replacing management-paid track guards with state security, licensing of all track personnel and testing drivers and jockeys for drugs and/or alcohol.

Ballenger, in releasing the report, suggested some form of off-track betting or simulcasting of races to Michigan tracks would be the single most important step in transforming the horse racing industry in Michigan from a multi-million to a multi-billion dollar industry.

He said there will be "real efforts" to sell the program to the Legislature early next year and success largely depends upon the various components of the industry pulling together to make a consensus approach.

Ballenger noted, however, that if the Legislature feels it has to act as a referee for the racing interests, any support for off-track betting would disappear.

The commissioner, who appointed the advisory council last year to conduct the study, said the group believes, because of a specific lack of a prohibition otherwise, that his office could have the authority to permit phone-in betting without a change in the current racing law.

He said such a program, should it be implemented on a trial basis, could pave the way for a full off-track betting program.

Phone-in betting would allow bets to be placed at the track where the race was taking place with each bet affecting the odds just as if the bet was placed in person at the track window.

Off-track betting, meanwhile, could be placed at other sites for both in or out-of-state races.

The preliminary report said implementation of off-track betting, simulcasting, telephone wagering, inter-track wagering or other non-

some years later.

But Mr. Lance is acknowledged as a political mover-and-shaker, especially in the South and particularly in Georgia. What Mr. Mondale was trying to do was to take advantage of Mr. Lance's considerable political assets; but he neglected to take into account that along with those assets go the corresponding liabilities.

Again, for the sake of Mr. Mondale's campaign, good riddance.

Both of these were appointments which never should have been made in the first place.

UP IN MICHIGAN'S northern 103rd state house district, a Republican candidate named May Lance recognizes the problems with namesake Bert Lance which somehow eluded Mr. Mondale.

May Lance's campaign advertising reminds voters in bold-faced type: "Not related by blood or principle to Burt (cq) Lance."

Maybe Mr. Mondale should try to lure Michigan's May Lance into a top campaign job. She seems to have more of a handle on political reality than his appointment of the Georgia Lance indicated.

GERALDINE FERRARO as vice presidential nominee is bound to run into continuing consternation in some quarters about her gender.

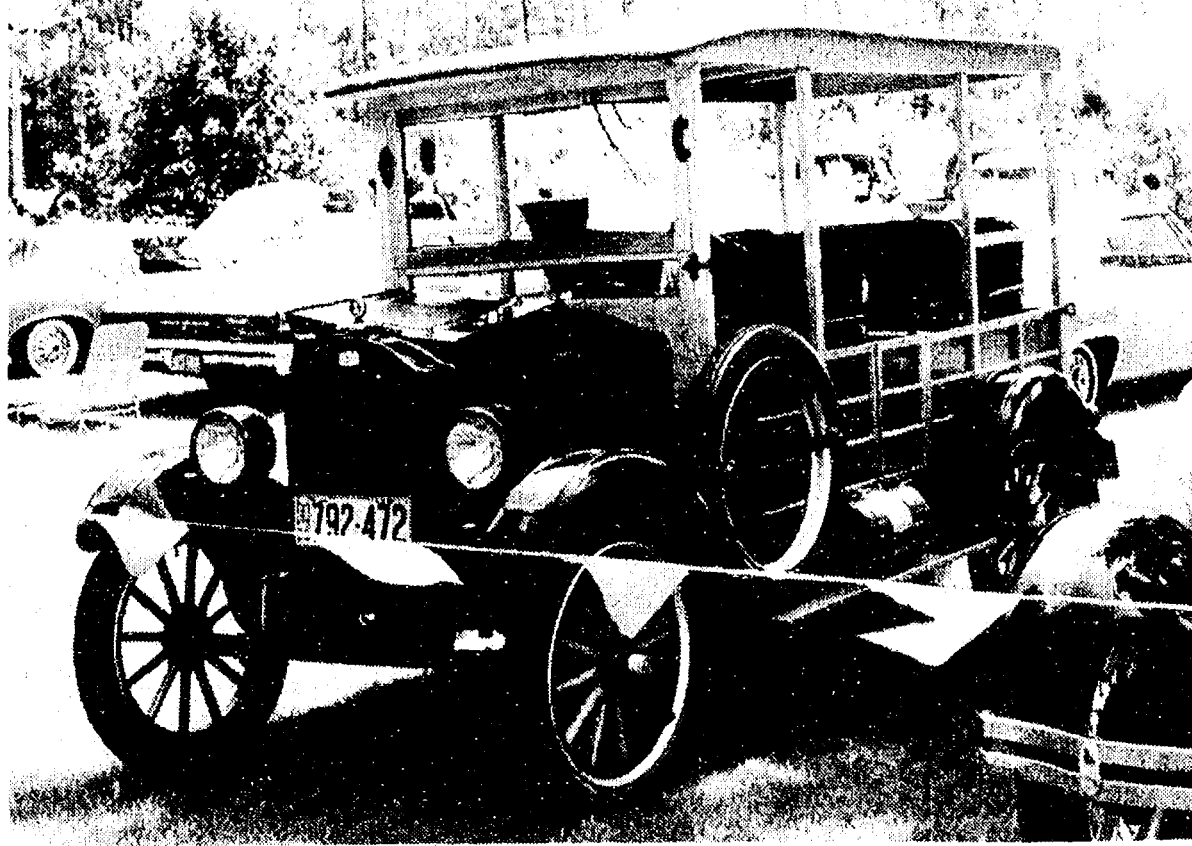

For example, on the initial Mondale-Ferraro campaign swing, a courtly Southern gentleman in Mississippi - Agriculture Commissioner Jim Buck Ross - asked her whether she could make blueberry muffins.

"Yes, can you?" Ferraro shot back.

She had the right to be a bit testy about such a question; I'll bet nobody ever asked her rival, George Bush, if he could bake blueberry muffins.

But the fact that the question was asked at all indicates that the nomination of a woman for vice president is not all plusses for the Mondale ticket; lots of folks, like Mr. Ross in Mississippi, have difficulty thinking of any woman in such a role.

And they'll have difficulty voting that way, too.

ANTIQUE AUTO SHOW — Antique autos will be on display the weekend of August 11 and 12 when the Boyne Country Region of the Antique Auto Club of America sponsors its 11th Annual Antique Auto Show and Flea Market at Veterans' Memorial Park in Boyne City on the shores of beautiful Lake Charlevoix.

Cars will be judged on Sunday only with 45 trophies awarded at 3 p.m. Car registrations will be taken until noon on Sunday.

One of the vehicles featured at the show will be a 1925 Gray Depot Hack owned by Judge Harvey Varnum of Boyne City shown above.

Auditions at Kirtland For "Fantasticks"

Auditions for the Kirtland Community Players Production of the musical "The Fantasticks", by Jones and Schmidt, will be held in the Kirtland Auditorium on August 27, 28 and 29 from 7 to 10 p.m. The performance dates are set for October 19-21.

The long running musical comedy concerns itself with only the bare necessities of life: a boy, a girl, love, romance, adventure, and the theatre. This heartwarming musical's elegantly simple staging may be the reason for its longevity: the players, a curtain, a stage, a trunk, a few costumes, and a passion are all that is required. After twenty-four years, the play is still running at the Sullivan Street Playhouse in New York.

All roles are available and all interested community members are encouraged to attend auditions. Dr. Amsden, Director of the Community Theatre, has expressed some surprise that there are still people in the community who think that the productions are just for the college students. "I would like to see a big turn out from the communities surrounding Kirtland. I intentionally selected popular comic plays this year which called for actors of a variety of ages in order to get the communities more involved. The Players have really been in existence for quite awhile, yet people are constantly amazed that we have such an active theatre program here, not even mentioning the rest of the Performing Artist Series."

The three central roles call for good strong singing voices: El Gallo, Matt and Luisa. El Gallo is the timeless soldier/con man/philosopher who has the oppor-

tunity to sing "Try, to Remember the Kind of September." Matt and Luisa are the juvenile leads and should look like they are in their late teens. Their fathers, Hucklebee and Bellamy, are rollicking gentlemen who are both over forty. Henry is the old broken down classical actor and Mortimer, his ageless idiot sidekick. The Mute serves as the onstage stage manager and the role is a nice showcase for someone with good stage movement abilities.

All those interested in the singing roles should prepare an audition piece, especially those auditioning for El Gallo, Matt or Luisa.

Marilyn Brown of Houghton Lake, the Roscommon Elementary School Music Instructor, will be serving as the Music Director and Robert Amsden will be the Production Director. Any inquiries about the show

should be directed to Rochelle Stewart from August 1 through August 15 at 517/275-5121, extension 279, while the Kirtland Theatre Office is closed. After the 15th, you may reach Dr. Amsden at ext. 226.

Doodles From The Tall Timber

By Wendell L. Hoover
Park Interpreter

I recently started presenting evening programs in the campground for the campers or any others who might wish to attend. After one program was over and I was getting the equipment packed, I could hear a nighthawk somewhere nearby. Only once have I gotten a close look at one.

They feed entirely on insects caught on the wing, which says something for their flying abilities. I have seen them early in the evening and heard their slight roaring noise after dark. One nighthawk stomach contained 1,800 winged ants, another 60 grasshoppers, and still another 500 mosquitoes. With a flying speed of nearly 22 miles per hour, not many insects get away.

According to one source I have, they may have a wingspan of over 20 inches and a tip-of-the-bill-to-the-end-of-tail length of 10 inches. They are dark colored, but the wings have a noticeable light-colored band near the tip and two narrow white bands on the tail. While the summer range covers most of the U.S., they winter in Argentina. They build no nest but lay two eggs on open ground, on graveled roofs, on roads, or in open spaces in fields.

The "bullbat" was once shot in great numbers during migration because of the skill required in hitting such an erratic target. Fortunately, the nighthawk is now protected by law — which is good for us considering what it feeds upon.

Women's Club Meets Aug. 14

The Christian Women's Club of Houghton Lake and surrounding communities will hold their August luncheon at Tommy's Dry Dock, on M-18 South, Tuesday, Aug. 14, from 12:30 to 2:30 p.m.

Special music, "Blue Ribbon Melodies," will be performed by the Maranatha Trio. The special speaker will be Vaunda Robinson Fast talking about "Unexpected Interruptions of Life."

Nursery care will be provided. For luncheon and nursery reservations call 422-5489 or 821-9317 by Aug. 10.

Kalkaska Co. Plat Book Reduced

by Verna Morrison,
Kalkaska County
4-H Program Asst.

The Kalkaska County 4-H Leader's Association has reduced the cost of their 1981 County Plat book from \$8.00 to \$2.00. The books are available at the Cooperative Extension Service office located in the Kalkaska Governmental Center on North Birch Street. You can pick up a copy or place an order by phone, 258-5074, and have the Plat Book mailed for a total cost of \$2.63.

Whats in a Plat Book? There is a map of each of the 12 Kalkaska County townships showing privately owned land, as well as State properties.

You can locate horse, hiking, snowmobile, cross country, cycle and ski trails, besides village boundaries, school and cemetery locations. There is also a complete index of landowners having ten acres or more.

Landownership changes, but there is much that does not - location of lakes and streams, recreation areas, township boundaries and roads.

You can also become aware of services offered by area businesses through their advertisements.

Proceeds from the Plat Book provide 4-H leadership training for adults and teens, scholarships for camps and travel dollars for unique learning experiences out of the area.

Frederic News

by Eva Hulbert

Frederic & Maple Forest, satellite dinner was well attended with 45 for dinner, and a very nice meal. Was very nice to see so many old friends. With Eloise and Howard Schmidt, and Agnes Nelson serving, and Mike Breen, outreach worker and just found out he will be leaving us. The Songbirds of Grayling entertained us with their square dancing, and quite a few of us joined in, a very enjoyable afternoon. The group is under the direction of Charles Kirk. An invitation to all that like to square dance or just to watch, every Tuesday evening, at the Health Care Center at 6:30. Please remember when you go for any of the programs, please park in the side lot and use the front entrance. If any information on aging programs you can call Cathy at 348-2841 ext. 228. Things are looking up so be patient and more programs will be in the making. Dinner is still served at the Housing at Noon. \$1.35 very good price, for a good meal. And now at the Frederic, Maple Forest Satellite dinner the 1st and 4th Friday at the Hobby Club. See you then.

The community wishes to extend their sympathy to the family of Aina Keranen, sister of Martha Burke.

Mr. and Mrs. Pearl White enjoyed some time with their son John Alvin and Elaine, son Chad and daughter Marsha of Tusca, Arizona. This was the first to meet the granddaughter. While they were here they enjoyed an outing to Mackinaw City, the Island and the Soo Locks and riding on the train. John and Elaine formerly lived in Higgins Lake. After on to Prudenville to see her family.

Brian and Judy Hulbert took his Sunday School class out on a canoeing, and picnic. They enjoyed the lunch which was furnished by the ladies missionary.

The Hulbert family enjoyed a week at the Jones Lake camping, Ann and Tom Denno with their 6 and two guests, Pat Sloan and her 3 children, Jim and Brenda with their 3 and a guest, Brian and Judy and their 3 and myself. With visitors Mr. and Mrs. Walter Desnoyers and his two sisters, Lucile Avey and Jean Beck who had been staying a week and the Richard Brown family and Dennis Sloan. Appreciation to our friends Paul and Pauline Henion and Ruth and Karl Isenhauser Sr. Also had cake and ice cream for Angela and Barbie's birthday, 16 and 15. Was nice meeting new people and seeing many of our neighbors.

BOOSTER CLUB BUYS FISH — Grayling Recreation Authority board member Marty VanDeVen, left, accepts a check from Grayling Booster Club President Gerry St. Germain for \$515 to pay for 400 trout released in the kids' fishing section for the Kids' Fishing Night July 28. The recreation authority ran the Kids Fishing Night. More than 100 trout were caught the first night and young fishermen continue to haul trout out of the mill pond.

Sorensons attend 25th Reunion

Mt. Pleasant Island Park was the location of this year's reunion of the Alexander Atkinson family on Sunday, July 29. There were 55 family members and five guests present. The largest family attending was 13 members of the family of Clara and Robert Sorenson, of Grayling. A special anniversary cake was served during the afternoon and the highlight of the day was a chart researched by Bill Kern, of Norton, Ohio, tracing family lines back to the great grandfather Joseph Atkinson. Pictures dating back to the very first reunion in 1960 were also shown. Other persons from Grayling attending were Mrs. Tom Cox and daughter Elissa.

Petrosky Wins Scholarship

Monique Petrosky, a 1984 GHS graduate, has been awarded a Recognition of Excellence scholarship from Eastern Michigan University. Winners of the \$1000 scholarship must have earned a 3.5 grade average or higher in high school and demonstrate outstanding leadership ability. Preference is given to students scoring 20 or higher on the ACT or 900 or higher on the SAT.

Class of '44
Holds Reunion

The Grayling High School Class of 1944 held their 40th year reunion on July 21-22. The weekend of fun was planned and held at the home of Jeanne and Sandy Thompson, both members of the class. Starting Saturday with a canoe trip and beautiful weather which ended in a few wet people, they adjourned to the Thompson residence on the AuSable for a pig roast. On Sunday the group enjoyed a round of golf in which Nelle Welch Maharg took the honors shooting a 39 on the Grayling Country Club course which she had not played in years. She was presented an appropriate "trophy" by Sandy upon their return to the Thompson's. Leftover roast pig was turned into bar-b-que and the group pronounced it a most successful weekend. Pictures of previous reunions were also shown during the weekend.

Grayling classmates attending were Gloria McDaniels Nielson and Carl, Don and Dorothy Smith Sorenson, Ernestine Stephan Palmer and Don, Jim Kolka and Joyce, and Clyde and Doris Anthony. From out-of-town were Jim Kernosky and his wife from Wausau, Wisconsin, Allan Stevenson and Marilyn from Bradenton Beach, Florida, Wilma Feldhauser Roth and Al, Jane Milnes Rosin and Bill from Portales, New Mexico, Nelle Welch Maharg and Ken from Cass City, Howard Delamater and Betsy from Kalamazoo, Bob Bugby and Carol from Flushing, George Akers and wife from Wisconsin, Eugene Corwin and Virginia from Roscommon, Edwina Simpson LaChappelle and Bob from St. Johns, Pat Chappel Sturim and her brother Bob from Roseville, and Gerald Burns and Doty from Mundelein, Illinois.

The class thought Jeanne and Sandy did a super job!

Strolling
Around Town

It's too far for a leisurely stroll through the airport subdivision so a ride was necessary. We found some well-kept homes and an especially colorful display of flowers and planters at the Sattler home.

Many people have commented that Grayling looks much better than it did years ago. Yes, it really does and a lot of people have helped, some more than others. Grayling has changed, in some ways, for the better, but in some ways, not so. A story about former Grayling people who traveled abroad this summer and found hospitality by total strangers by taking them into their home, brought on a discussion about the same thing happening in our city not very many years ago. Many private homes here were opened to winter sports enthusiasts, hunters, tourists, etc. There was a spirit of helping the community. I wish this spirit still prevailed; many times I hear, "that's the city's job!" The city is "us"; whatever is done, cutting weeds by the roadsides or curbsides, or taking care of the planters in front of your businesses, it reflects on all of us. Do that little extra for your community. Don't wait for "George to do it" whoever "George" may be. Come on Grayling, you're doing well; you can do it better!

Youth
Service Bureau

Last week's Recreation Program was a very exerciseable, but leg aching, one for all of us. The following activities took place:

On Monday, we took a group of youth on a tour of Hartwick Pines. The kids loved the tour and afterwards, they played a "hot" game of softball.

On Tuesday, we went up to the Frederic area on a hiking trip. The kids seemed to have liked eating the blueberries more than the hiking.

On Thursday, our Open Recreation group went to the Historical Museum here in Grayling. (The kids found it quite interesting). In the afternoon, we went to the park and did some Arts & Crafts.

Our staff would like to thank the nice people at the Historical Museum, and Heidi Morrill, for helping with the Arts & Crafts.

This week's Recreation schedule includes:

A two-day campout on Monday - Our campers will meet at the office at 10:00 a.m. on Monday and will return to the office at 2:00 p.m. on Tuesday.

On Wednesday, we will be going on a canoe trip down the beautiful AuSable River.

On Thursday, our Open Recreation group will be going on a scavenger hunt.

The Youth Service Bureau is a Crawford County United Way supported agency.

Also, I would like to congratulate Jim Harwood and Ted Kolka for finishing 9th in the 1984 Canoe Marathon. Good Job!!

BIRTHDAY PRESENT — Joey Anteau, of Grayling, finally landed this big trout on Thursday, August 2nd, his twelfth birthday. Anteau had been trying to catch the fish for a couple of days and early in the morning on his birthday he landed him from the railroad bridge by the mill pond. The large trout was one of 400 released for the Kids' Fishing Night. (Photo by Jon Thompson)

Dick Van Patten at CCP

Cherry County Playhouse presents its fourth production of the 1984 season - the Traverse City premiere of "Passengers" opens August 7 and will run through August 12.

Dick Van Patten, who stars as Tom Bradford in the syndicated hit T.V. series Eight Is Enough, is making his first appearance at the Cherry County Playhouse. Mr. Van Patten, who made his Broadway debut with Melvyn Douglas in "Tapestry in Gray", is now celebrating his forty-fifth year in show business. He has appeared in the outstanding productions of "On Borrowed Time" and "Mr. Roberts", as well as the Pulitzer Prize winning production, "Skin of our Teeth". He has also made numerous guest appearances on almost every major television series, and has starred in such series as

"The Partners," "Arnie", "The Dick Van Dyke Show", and "When Things Were Rotten."

"Passengers", written by Sam Bobrick, is made up of a series of eight short plays that take place in what appears to be a bus depot. Zany characters, tickling comedy, and old friends meet in these touching, amusing, & colorful "slice of life" vignettes. Mr. Van Patten's sons, Nels and Jimmy, also appear in this production.

Mr. Bobrick, author of the smash Broadway musical, "The Wiz", as well as "Norman, Is That You?", "Murder at the Howard Johnson's," and "Wally's Cafe", is one of the most versatile and successful writers working in theatre today. He was also head writer on The Smothers Brothers Comedy Hour, as well as working on the writing staff of such T.V. hits as Get Smart, The Andy Griffith Show, and numerous television specials.

"Passengers" is beginning the exciting and well known classic route to Broadway. It has had successful play readings in Hollywood and has been booked into outstanding summer stock try-out theatres in St. Louis, Traverse City, and the famous Shubert Theatre in New Haven.

The Traverse City premiere of "Passengers" will be shown August 7 through August 12. Showtimes are Tuesday through Saturday at 8:30 p.m., Sunday at 7:30 p.m., and Thursday and Saturday matinees at 2:00 p.m. Get your tickets and ride with the Cherry County Playhouse in "Passengers." Call the CCP box office at (616) 947-9560 for tickets and information.

General Telephone is now compiling information for the new telephone directory.

During the information compilation period, both residential and business customers can change their listings. There may be a nominal charge for revisions made to white page listings.

"Most changes can be handled by telephone and a personal visit is usually not required," Kowalski said.

Registration at Calvary Baptist Academy

Calvary Baptist Academy, formerly known as Grayling Christian School, will be open for registration Thursday, August 16th from 9:00 a.m. to 5:00 p.m. This will mark the 10th year Calvary Baptist Church has operated a Christian Day School providing a Bible-centered curriculum, to teach a Christ-centered world-and-life view. Love and respect for God, home and country are stressed in every part of the program.

Calvary Baptist Academy uses the Accelerated Christian Education program of self-instructional material. ACE gained international success in the 70's and is today the largest Christian Day School movement in Fundamentalists circles. The school staff includes Michael Corlew, supervisor, and Lynette Corlew and Mae Niederer as monitors.

Prospective students are received without respect to sex, creed, race or national origin, religious background or any other factors which might be used to discriminate. We require only that the students want to attend the school and be willing to learn. We require of the parents that they fully support the staff in every area of the school program.

Mrs. Robert Breecher was in Michigan visiting friends and relatives for two months. Irene Peterson then drove her aunt back to Bradenton, Florida, stopping at Perry, Georgia, to visit relatives. While in Florida for 2½ weeks, Irene visited many relatives and friends, and saw many interesting places. John, Judy and Susie Gifford were on vacation at Higgins Lake and were here to visit their cousin, Irene, and family. With them they went down river and also watched the start of the AuSable Marathon with other friends from Montrose. Those here to follow all the way to watch Jim Corlew and Brian Stephan in their first Marathon, were Pam and Gordon Bogart and two children, Kyle and Najean Wood and two children from Six Lakes and Edmore. They had a nice cheering group going all night.

Four-year-old Lindsay Milnes, two-year-old twins Jessica and Elise, all daughters of Mr. and Mrs. Roy Milnes, III, of Littleton, Colorado, were baptized at the United Methodist Memorial Church by the Rev. Jeff Regan at a 1 o'clock ceremony on July 29, 1984. They were the fourth generation of Milnes to be baptized at the Church. They are the grandchildren of Mr. and Mrs. Roy Milnes II of Roscommon and the great-grandchildren of Mrs. Roy Milnes of Grayling.

Tonight Wednesday, August 8, we will be holding our monthly meeting down at the Post Hall at 7:30 p.m. Let's show our new President Sharon our support by having a good turn out.

We are trying to put together a cook-book with all of our recipes in it. Ladies there are slips down at the Post that you can pick-up. Fill them out with all of your recipes and drop them off at the Post. We know that you have many delicious recipes to share with everyone. Wouldn't you like to see them in print?

We have only one member in the hospital at this time. We all hope and pray that Eriel Promenchenkial gets better real soon.

Ladies we are working on the Muscular Dystrophy Telethon and we could use your help. Contact Sharon or Roselyn and let them know when you can help.

Until next time...Have a Nic Day!!

Chamber Chatter

By Joyce Kolka

Future planning is the key to success in all matters doing business. So it is with organizations. The Executive Director of an organization must plan for conventions, seminars and meetings in advance to have plenty of lead time to program activities, speakers, lodging, recreation and most important is the site of the meeting. Grayling is fortunate in having a convention center like the Holiday Inn with a professional convention organizer like JoAnn Cox. JoAnn is a member of the Board of Directors of the Chamber and her enthusiasm shows in both areas.

For instance, one of the earlier conventions in September will have 400 delegates and if most of them bring their spouses, we can expect 600 to 700 people in Grayling for a three day meeting. The Holiday Inn has 150 rooms so it stands to reason that 300 or more people will be using the facilities of the other motels in Grayling. This same theory can be assumed for eating and drinking establishments, retail stores and attractions. The Michigan Travel Bureau estimates that each delegate will spend \$58.00 per day or more depending on their spouse. It is also a fact that the tourist and convention dollar changes hands seven and one half times in a community.

Almost every month there is a convention booked for Grayling. The Motel-Lodging Committee chaired by Lottie Rochette, manager of the Chief Shoppington Motor Hotel and other members of the Committee, Mike Hauxwell of the Cedar Motel, JoAnn Cox of the Holiday Inn, Greg Hoggard of the Roost and Carl Craft of North Country Lodge are making community plans to host our visitors in Grayling. They would appreciate the co-operation of the area in obtaining advertising souvenirs to give to the delegates as a remembrance of their visit to Grayling. The Chamber of Commerce is the umbrella organization for most activities lending leadership and secretarial services for all chamber committees.

Word has been received from Boone's Hillside Farm that a super large heron is trying to settle near their pond area. In fact, it looks like a prehistoric taradactile. Although not much wildlife has come into that area as yet, with signs like this it shouldn't be long.

A big thanks to John Hathaway of Pomeroy Home Furnishing for the Milltown Bus Tour Sign and to Chum Lovely and Curt Jansen for towing the float in the parades. The guys from Michigan Consolidated Gas and Camp Grayling also deserve a big thanks for building the chasis for the float and transferring the top portion for us. Without you fellas Grayling wouldn't be represented nearly as well. Again, thanks to all of you and because of you, Grayling is a wonderful place to live.

STATEWIDE TROUT AND SALMON REGULATIONS

The Natural Resources Commission, at its meeting on July 13, 1984, under the authority of Act 165, P.A. 1929, as amended, and Act 230, P.A. 1925, as amended, ordered that for the period beginning September 1, 1984, and ending March 31, 1987, no person shall possess, take or attempt to take, any species of trout or salmon from any of the waters of this state except by hook and line during the open seasons prescribed, and within the minimum size limits and maximum possession limits indicated below.

Statewide open seasons on all other inland lakes and the Great Lakes shall be any time for all trout and salmon except on Lake Huron and its tributary streams and on Lake Michigan and its tributary streams the season on lake trout is from May 1 through August 15.

Size limits shall be 8 inches in Lower Peninsula streams, 7 inches on Upper Peninsula streams, and 10 inches on all lakes. In addition to one day's possession limit of salmon and trout, a person may possess an additional two day's possession limit of processed salmon. For the purposes of this Commission Order the term processed means:

- Canned in a sealed container
- Cured by smoking or drying
- Frozen in a solid state

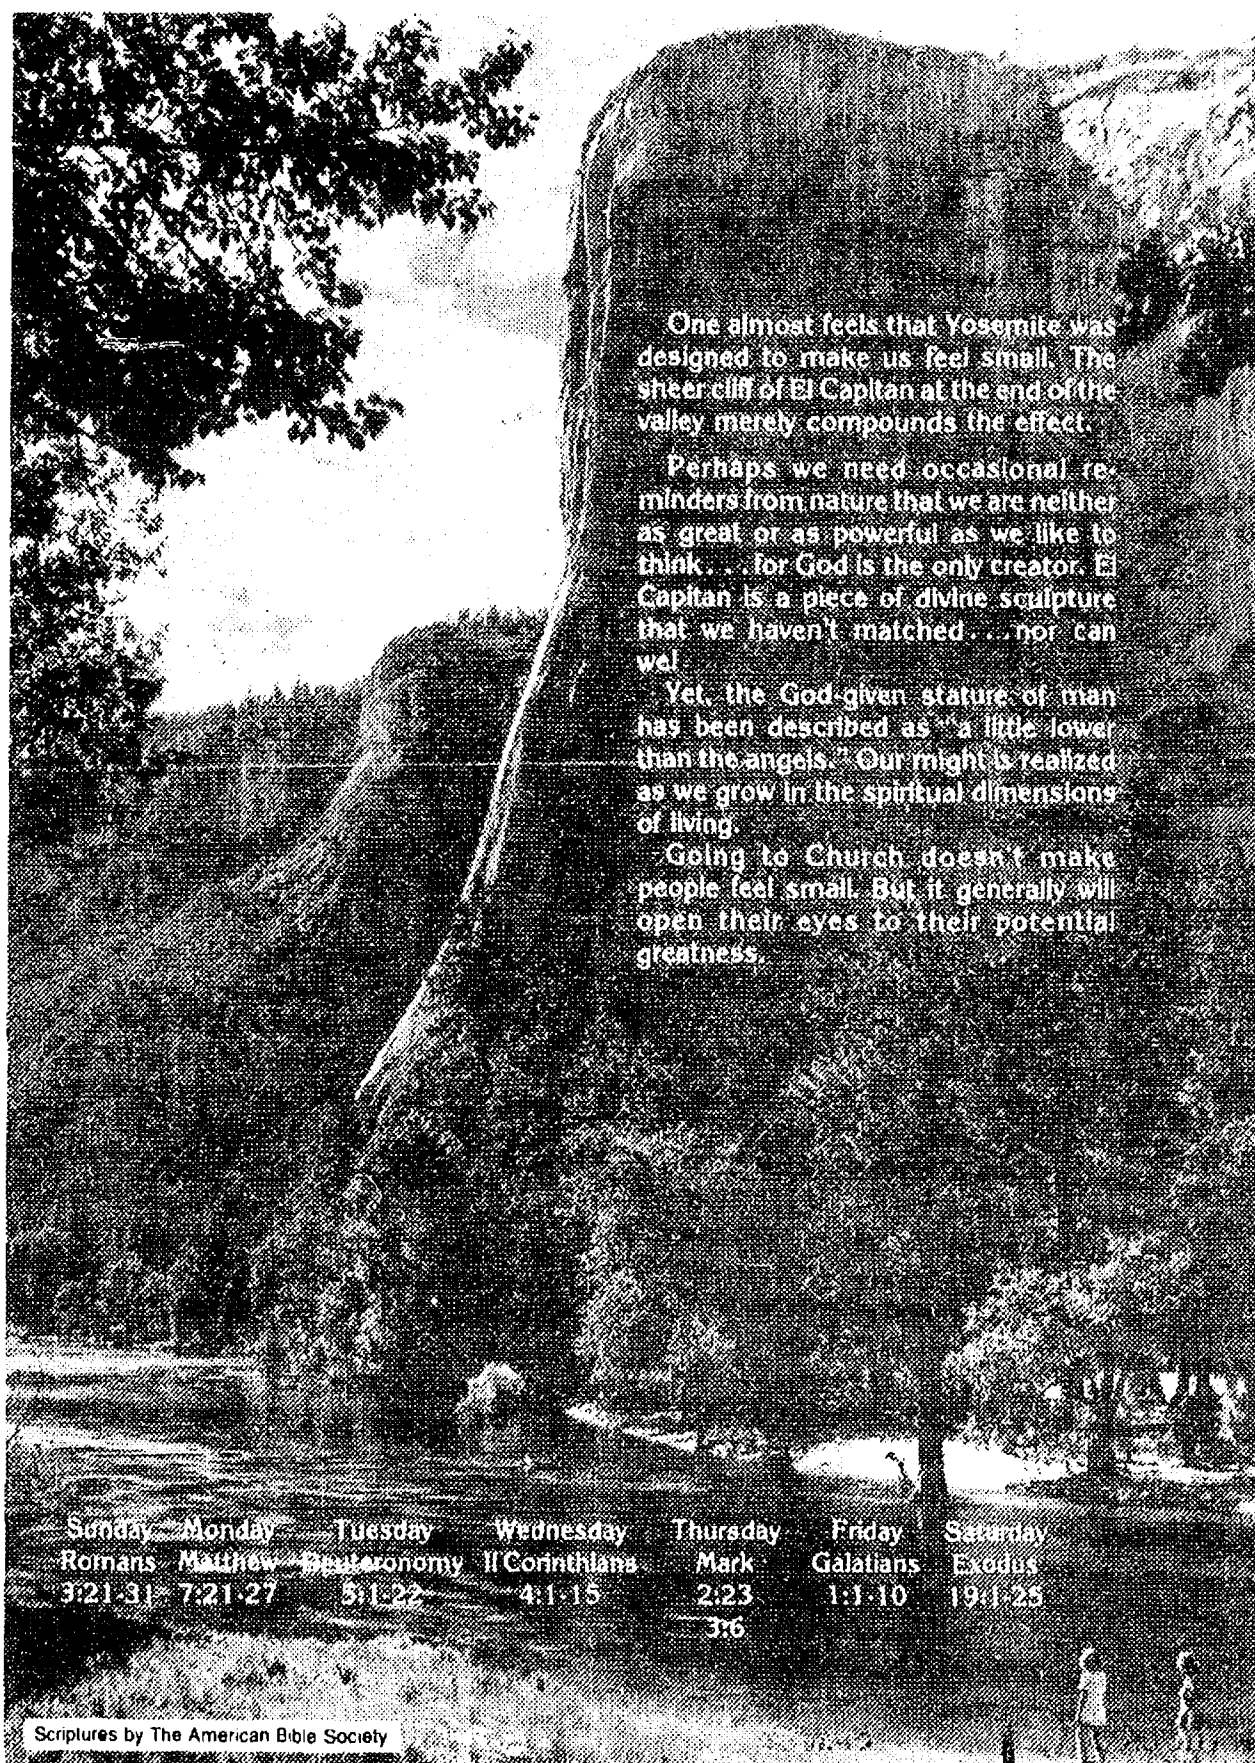

Any processed salmon or trout aboard a vessel on the water or at docks shall be included in the daily possession limit.

CHURCH DIRECTORY

WE ARE SO LITTLE

Copyright 1984 Keister-Wilms Newspaper Services P. O. Box 8005 Charlottesville, VA 22906

One almost feels that Yosemite was designed to make us feel small. The sheer cliff of El Capitan at the end of the valley merely compounds the effect.

Perhaps we need occasional reminders from nature that we are neither as great or as powerful as we like to think. For God is the only creator. El Capitan is a piece of divine sculpture that we haven't matched. ...nor can we!

Yet, the God-given stature of man has been described as "a little lower than the angels." Our might is realized as we grow in the spiritual dimensions of living.

Going to Church doesn't make people feel small. But it generally will open their eyes to their potential greatness.

Last Wednesday, August 1, a meeting was held down at the American Legion Hall to discuss preparations for this years telethon for Muscular Dystrophy.

I am really excited to think that this year the American Legion Post 106 of Grayling will be hosting this years telethon from Grayling. We are most pleased to have been chosen as Grayling's headquarters.

For those of us that were at last Wednesdays meeting, the realization hit that time is running out to prepare for the telethon. We now have less than one month before the telethon begins and there are many, many plans yet to be finalized.

We are working very hard to line up an excellent program. Bob Greenwood from W.Q.O.N. is starting out our dance Sunday, September 2 at 6:00 p.m. Immediately

following Bob will be Madonna from 8:00 to 10:00 p.m. We will be having Brian Ashton and Southern Pride, T-Bear, The McCoys as well as Fred Hinkle but as yet their times have not been set.

The Stanley Home products Co. started last month and are continuing this month helping the Muscular Dystrophy Association. When you hostess a party, 10% of your proceeds go to MDA and the Stanley Co. matches it. Isn't this a wonderful way to help Jerry's Kids. The AuSable Valley Church of God will be holding a party to help MDA on August 16 at 7:00 p.m. at the Frederic Township Hall. Be sure to hostess a party this month to help out with this worthy cause.

Our next meeting will be held this Friday, August 10 at 7:30 p.m. down at the Post Hall. Anyone wishing to help out with MDA are urged to attend.

If your club or organization would like to have a booth or you would just like to get involved please contact Shirley Mowrey at 348-7190 or Roselyn Johnson at 348-7756. Remember this is for Jerry's Kids, they need our support.

HYDRO-PULSE™

New HYDRO-PULSE™ unit can cut gas bills up to 35%.

The mind-boggling new Hydro-Pulse gas boiler simply uses gas more efficiently... up to 35% more efficiently.

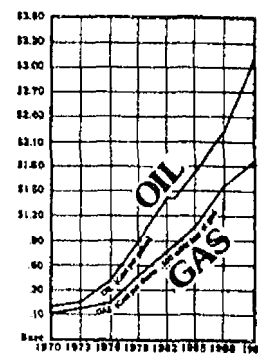

That means more of the gas burned is used to heat the home... and none is wasted up a chimney. As a matter of fact, the temperature of the combustion gases leaving the Hydro-Pulse unit is so low, no chimney is needed. A small diameter plastic pipe simply carries the exhaust outdoors. Almost all of the heat goes into warming the home.

If you're switching from oil or electric, savings can be at least 40% or more.

The rapidly rising cost of fuel oil and the high cost of electricity have made the Hydro-Pulse boiler a tremendous bargain. In many instances, your savings may pay for the entire cost of an installed Hydro-Pulse boiler in three years or less... when substituted for oil or electric heat. Yes, it's true. The Hydro-Pulse boiler is the most efficient gas or oil heating unit made today and it's available right now.

Fuel bills will keep rising.

Cost projections by expert industry analysts predict that fuel costs will continue to soar for oil and gas during the next 10 years. Now is the time to protect yourself with a system that heats for less.

A HYDRO-PULSE™ Unit will save you more dollars with each passing year.

As the cost of oil and gas continues to rise... and costs are expected to more than double within the next five years... the Hydro-Pulse boiler saves you more. For example, if your gas bill is \$800 a year now, you could save 30% or \$240 per year. In 1985, if your gas bill is \$1,600, you'll save the same 30%, but instead of the savings being \$240 per year, they'll be double, or \$480.

Look at these other features and benefits.

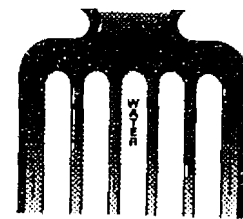

- No pilot light. That's a gas saver.
- No burners. There is no open flame.
- No chimney required. Exhaust gas temperatures are cool enough to exhaust through a plastic pipe.
- Reduces infiltration of outside air. Combustion air is drawn from outdoors, not heated air from within the home.
- Uses less gas. The Hydro-Pulse is over 90% seasonally efficient.
- 20-year limited warranty. Hydrotherm believes in the reliability of this great new energy-saving product.

Unique principles of operation.

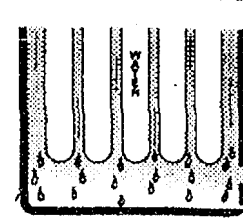

1. A mixture of gas and air is ignited in the combustion chamber, much like an internal combustion engine.

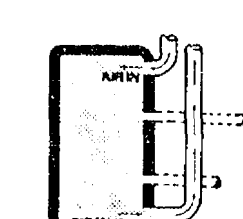

2. Hot gases from the combustion chamber are forced downward where they heat the water.

3. As the hot gases condense, they give off even more heat to the surrounding water.

4. The exhaust gases are so cool, no chimney is needed. They are simply exhausted to the outdoors through a small diameter plastic pipe.

Installed only by Certified Contractors.

At Hydrotherm's National Training Center in Northvale, New Jersey, and at field training centers throughout the nation, heating contractors have been Certified to install and service the Hydro-Pulse boiler. The Hydro-Pulse boiler cannot be installed by other than a Certified Contractor.
